

Unicorn

The word unicorn means "one horn."

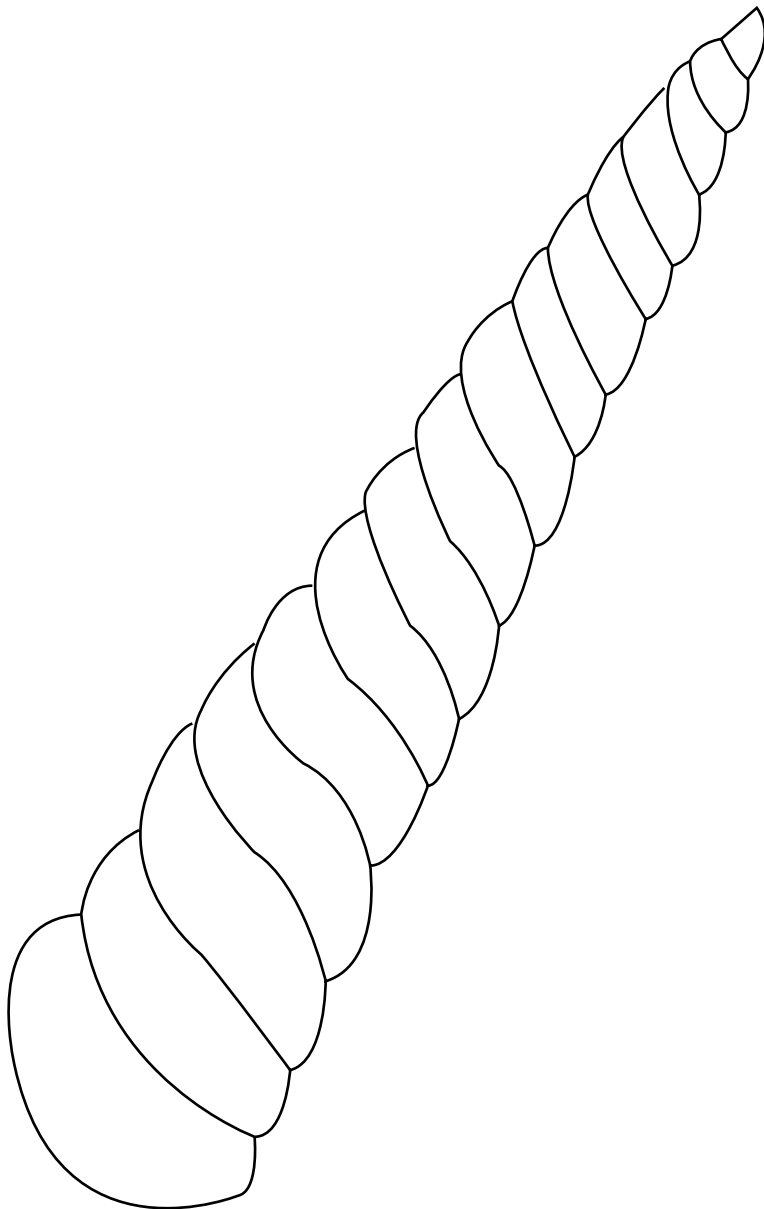

The Unicorn's Horn

The unicorn's horn goes around and around like a spiral.

Some people say that the unicorn's horn is the color white. Other people have said it is the color black or that it is made of gold. In India, they say the unicorn's horn is red.

Close your eyes and picture a unicorn. What color horn does your unicorn have?

The Unicorn's Tail

Many pictures show the unicorn with the tail of a horse but in ancient times it was said that the unicorn had the tail of a lion.

Where Do Unicorns Live?

Unicorns have been seen in many countries and even in the United States! Use a map or a globe to find the places where unicorns have been seen.

Throughout all of Europe

China

Egypt

India

Florida, USA

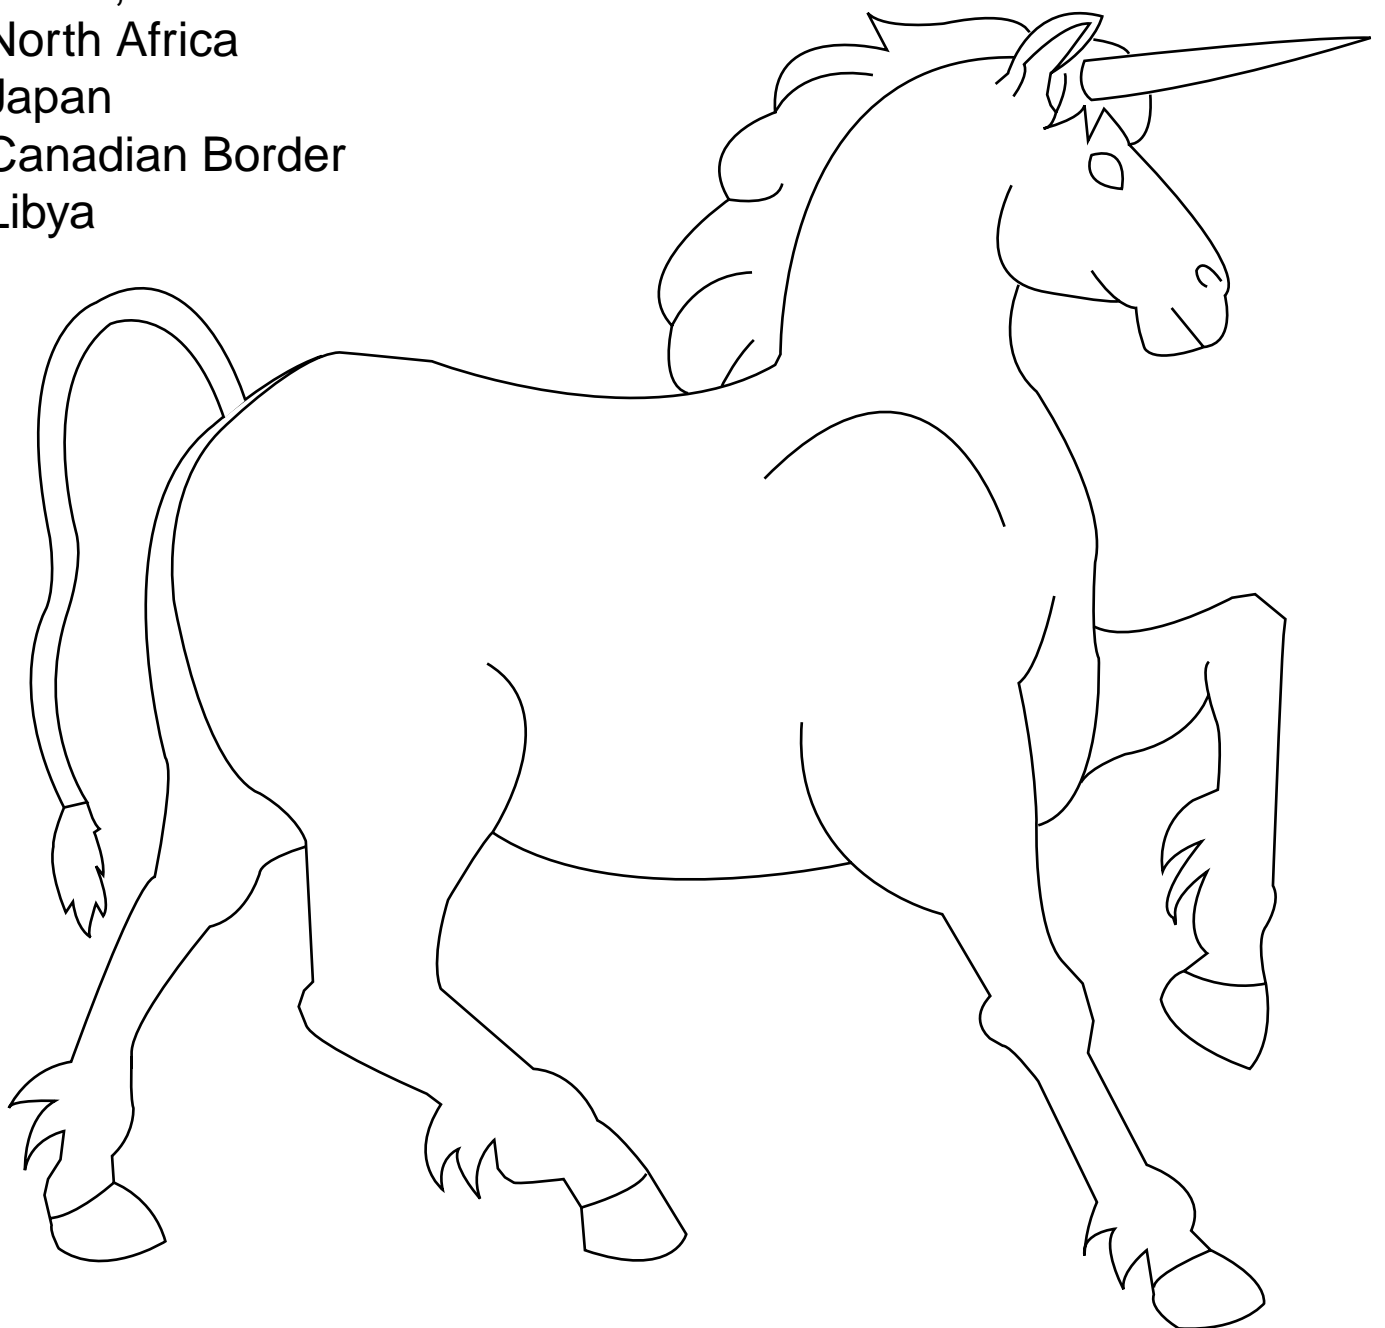

Maine, USA

North Africa

Japan

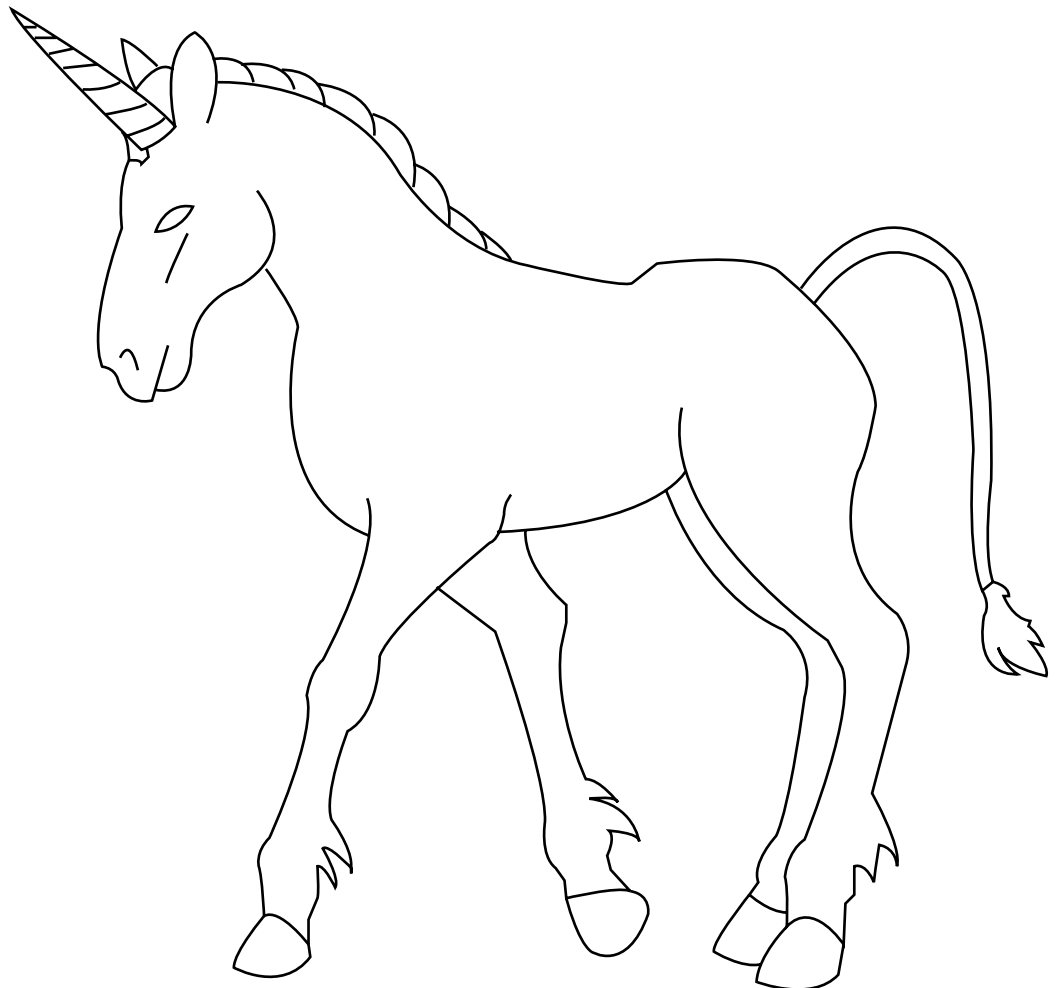

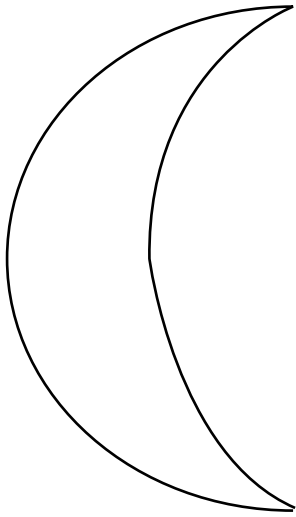

Canadian Border

Libya

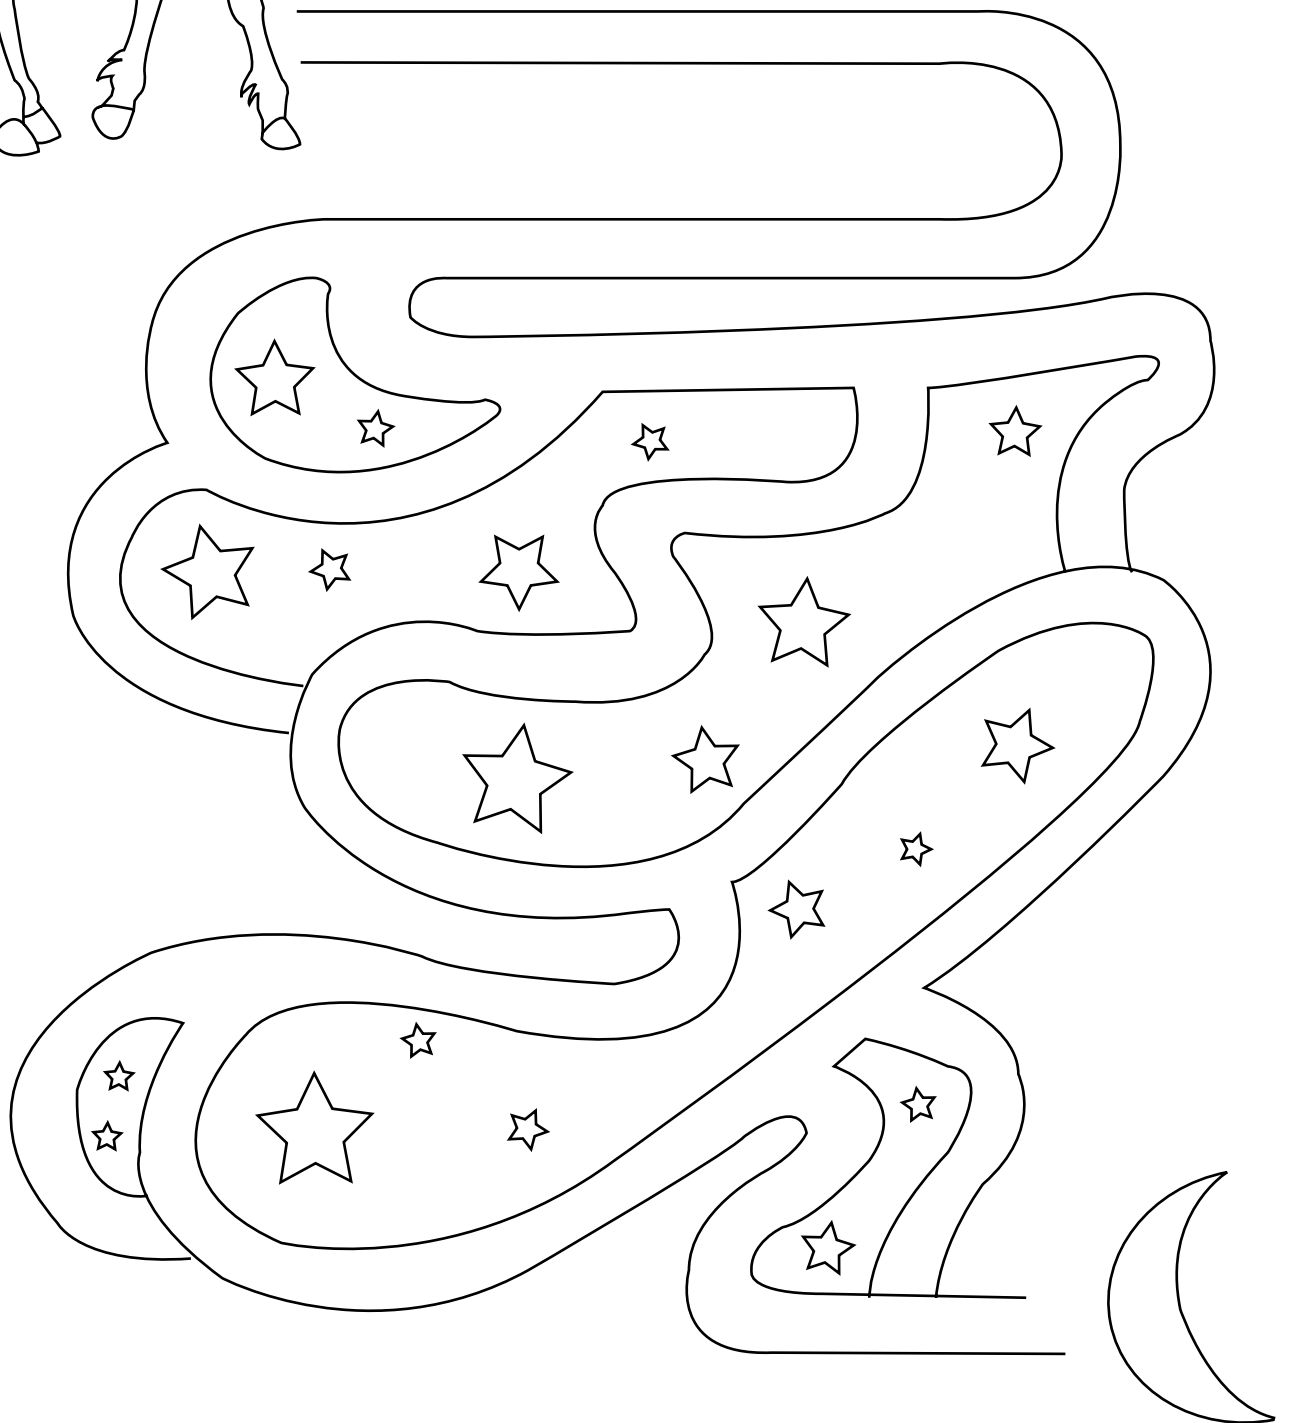

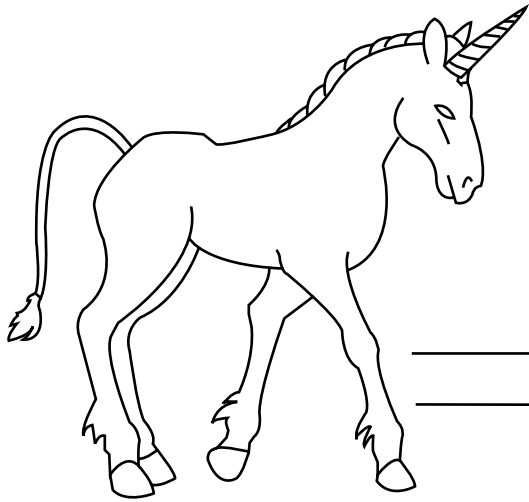

Lunar Creatures

Unicorns are associated with the moon.
They are also associated with the
Goddesses Artemis and Diana.

Help the unicorn find her way to the moon.

Resources

Movies:

The Last Unicorn
Legend

Research:

Magickal Mystical Creatures: Invite Their Powers into Your Life by D.J. Conway. Llewellyn Books.

This book is a good start into researching about magical creatures.

Children's Books:

Many children's books on unicorns can be found doing simple searches on Amazon.com.

Unfortunately many of the children's books that I have are from my childhood and are no longer in print.

About The Unicorn was created by eliza fegley from www.sacredspiralkids.com.
