

Heraldry: Coat of Arms

~~~~~

Eliza Fegley  
eliza@sacredspiral.com

On the pages that follow are the partitions and layouts of shields. This PDF is not a coloring book, although I'm sure some kids would find it fun to color in all the little shields.

This is for a lesson I'm doing with my two children and the following pages are being used to create our own shields. There are a few traditional shield designs at the end of this PDF. For more design ideas, download the previous coloring books or check out the patterns available in the crafts section.
